

## **SUSTAINABLE-ORGANIC-BIODYNAMIC**

Many of our featured wines are made by wineries and winemakers that go to great lengths to ensure their practices will not impact the ecosystems they operate in. As well as encourage its sustainability. Farming in an “Eco-friendly” way is a philosophy which often affects the final cost of these products due to very strict government regulations and the intensity of labor involved to meet such standards. The final result is a wine with a sense of place and true varietal expression, made in respect of our planet and the health of those living beings we share it with.

*If you who would like to support these producers look for those wines marked with this sign: ♣☀♥*

“Wine is one of the most civilized things in the world and one of the most natural things of the world that has been brought to the greatest perfection, and it offers a greater range for enjoyment and appreciation than, possibly, any other purely sensory thing.”

*~ Ernest Hemingway*

*The Gaja Winery was founded by Giovanni Gaja in 1859 and has been owned and operated by four generations of the Gaja family. Angelo Gaja is such an influential, world-class winemaker, and its "Cult-wines" such as *Gems*, that we felt that they deserve a section of their own in Pace's wine list.*
